Information: Please review the [help page](#) on the Member's only site, located in the upper right hand drop down menu section. In the Club Resources section you will find all the forms needed for requesting tournament sanctioning, etc. Check often as they are updated. Enclosed is the easy on- line registration.

Staff Registration: The United States Soccer Federation and our insurance carrier require that all staff who will be coaching a team, working with players, or serving as a team manager when traveling must register online through the team registrar and personally complete an annual online background check. More information on this can be found on our website. Please allow 72 business hours (Monday-Friday) for your club to be added to the background website.

Message Feature: The messages area should be the first method of contact utilized when inquiring about the status of pending pass card requests. Please communicate first through this feature, which is truly the fastest way to get a response.

Emails: Please state on the subject line the name of your club, club and Team ID # and the nature of your email such as Questions, Insurance Certificate, etc.

Thank you for choosing to be a US Club Soccer member!
